

RPR™ WALL PANEL

WALL SYSTEMS

FEATURES

- Reverse rolled version of VP's Panel Rib design
- Available in 26 or 24 gauge
- 36" wide panel with 1-3/16" deep ribs 12" on center
- Available in lengths up to 48'*
- Variety of color options with KXL finish and a 25-year paint warranty
- Installed with stainless steel capped self-drilling color-matched fasteners
- Fasteners installed in recessed rib

**Max. length varies by manufacturing location*

BENEFITS

- Variety of gauge thicknesses to meet most codes and specifications
- Engineered for durability and aesthetically pleasing
- Superior paint finishes reduce maintenance costs
- RPR's recessed fastener locations give the panel a semi-concealed profile with bold architectural lines
- Accommodates more insulation for higher energy efficiency

RPR WALL PANEL

This functional wall panel accommodates additional insulation for greater energy efficiency

RPR panel is an attractive, high quality, low maintenance panel based on a "reverse rolled" version of VP's standard Panel Rib design.

RPR is a 36" wide panel with a 1-3/16" rib profile. Available in lengths of up to 48', RPR can provide continuous coverage from foundation to eave, eliminating the need for end laps and assuring superior weather tightness. Panels come standard in sturdy 26 gauge steel or optional 24 gauge.

RPR panel's deeper profile can accommodate up to 6" of faced blanket insulation or up to 2-1/2" of rigid board, creating a more thermal efficient building envelope.

All gauges of RPR are available in a variety of standard colors with KXL finishes and acrylic coated Galvalume®. The KXL paint system is a PVDF finish applied to the zinc or zinc aluminum coated steel to give a long-life color that resists fading and chalking. KXL is a 1 mil nom. PVDF finish with 70% Kynar® 500 or Hylar® 5000 standard. For complete color selections, refer to our color card #6021.

RPR's recessed fastener locations give the panel a semi-concealed profile with bold architectural lines. RPR comes with a complete trim package including gutter and rake trim, corners and base trim to provide an attractive finished appearance. VP also offers a full line of high quality accessories including doors and windows designed to give years of trouble-free service.

Panel Width: 36" coverage
Panel Length: Min. 1' Max. 43'-48'*
Gauges: 26 or 24 gauge
Substrate: AZ50 coated or AZ55 for Galvalume
Exterior Coating: KXL (70% PVDF)
Interior Coating: Gray primer
Ext. Coat Warranty: 25 yrs. conditional†
Finish: Smooth
Profile: Reverse ribbed, 12" o.c.
