

# SUPPLEMENTAL PRICING

## Warranties

### Special Color Warranty Request

1. Purpose and Scope:

To inform the Builder of the Warranty period on all special color request. Varco Pruden Buildings standard (25) year finish warranty *does not* apply to special colors.

2. Key Points & procedures:

- a. Standard Finish Warranty does not apply to special colors request.
- b. Project Manager to fill out the “**Special Color Request**” form ([FMPM0223-VPB](#)).
- c. Project Manager is to provide a sample for color match. This will need to be provided from the Builder/Owner either prior to approval of the estimate or during clarification, but either way, VP cannot commit to honoring or offering a warranty until the vendor has approved the color chip and the builder/owner has accepted the vendor’s response. This could delay the quote and or the project.
- d. The project manager needs to inform the builder/owner that a schedule for special colors cannot be committed to until the items listed in section F below have been completed.
- e. The PM or estimator should inform the builder/owner that the price of the special coated material is subject to change and that a minimum coil order is typically required.
- f. The warranty administrator will facilitate the coordination with the vendor to include
  - Receive the color chip from the PM
  - Get the color chip to the vendor for color match and determination of warranty
  - Get the new color chip from the vendor with the color they are capable of providing
  - Send the new color chip and the warranty information back to the PM based on the information provided by the vendor.
